Quicksilver Activ 805 Sundeck , the perfect blend

BY THE BOATMAG EDITOR • GENNAIO 16, 2015

If you're looking for a seven meter boat capable of mixing performance with comfort, the Quicksilver Activ 805 Sundeck could be the perfect match.

It may be tough to find a specific destination for this boat, as her key factor is versatility itself. Designed for watersports and relaxing cruises in the sun, the Quicksilver Activ 805 Sundeck can satisfy the needs of many. Do you feel like sunbathing? There's one of the largest solarium in her class. Time for a small party? Call on board up to nine friends, and four of them can even have their bed for the night. Let alone comfort and safety, values that Quicksilver put first in every new model.

The deck of Quicksilver Activ 805 Sundeck

Despite the black stripes on the sides, it's tough to hide the real size of the boat. It's the price to pay for having that much room inside. But those tall gunwales are a guarantee that the Quicksilver Activ 805 Sundeck will cruise safely even at high speed, when pushing the single or twin engines up to 400 HP. Add to that a sturdy hull, a precise helm and the perfect piloting position, and there you have a boat that makes you at ease, at any pace and weather condition.

THE BOATMAG EDITOR

The cosmopolitan spirit of BoatMag International covers news and previews about products from all over the world, discovered in first person by its contributors at the main international shows and events.

Even life on board is a priority, as shown by the comfortable access granted by the two swim platforms with ladder, and the large steps that give access to the fore sunpad. Another tanning bed will be available to aft by tilting the dinette backseats. To complete the layout, a small but practical galley cabinet, an additional seat to serve the L table, and an ergonomic dashboard fitted with Mercury gauges.

The cabin of Quicksilver Activ 805 Sundeck

A transparent sliding door gives access below, in particular to a bright and airy space: depending on the options, it can feature a separate heads with sink and WC, a galley with thermic box or refrigerator, stove and fresh water. There's space to accommodate four, and enough ventilation and light granted by opening portholes. Quicksilver offers then a Smart Edition boasting the most common options with a price reduction of 10% on the single items.

Technical Features

- Length overall 7,88 mt (25 ft 10 in)
